## EDUCATION

### Vivekananda PU College

*Pre University College*

Puttur, Karnataka

June 2019 – July 2021

### FMKMC College, Mangalore University

*Bachelor of Computer Applications*

Madikeri, Karnataka

August 2021 – July 2024

## EXPERIENCE

### Postship - Software Developer

Sep 2024 - Present

*Full Time*

- Built an entire section of the product for different **directories** using **Next.js**, **Tailwind CSS**, and **Firestore**, closely following **Figma designs**.
- Improved site **SEO** by implementing insights from **AHrefs** and transitioning pages from **SSG** and **SSR** to **ISR** for better performance.
- Developed **APIs** using **Golang** and integrated them seamlessly with the **frontend**.
- Collaborated with a skilled team, enhancing my learning in **team collaboration** and **advanced version control** practices on a daily basis.

### FixitAI - Full Stack Developer

July 2024 – Sep 2024

*Intern*

- Contributed to building the product using **Next.js** and **Shadcn**, focusing on designing and developing user interfaces.
- Collaborated with the team to develop **APIs** using **Python FastAPI** and integrated them with the **frontend**.
- Implemented a **real-time chat system** with typing effects and message timestamps to enhance conversational AI features.
- Optimized performance and responsiveness for mobile-first designs using **Tailwind CSS** and **Chart.js** to create interactive visualizations.
- Single-handedly built an entire page showcasing the company's features, including an **audio bot**, **chat bot**, and **audio analysis**, for an event in Dubai.

## PERSONAL PROJECTS

### ImageNary AI | *Next.js, Typescript, Tailwind CSS (Shadcn), Cloudinary API*

- Built an image enhancement app with **Next.js**, optimized for **performance and user experience**.
- Seamlessly **integrated with the Cloudinary API** for sophisticated image manipulation capabilities, including **restoration and generative fill**.
- Utilized **Tailwind CSS (Shadcn)** for responsive and efficient styling.

### MediaHub API | *Node.js, Express, MongoDB*

- Developed a video sharing and streaming platform** akin to YouTube, offering a robust framework for user and video management.
- Implemented features for **user registration**, **profile management**, and **video operations** (uploading, updating, deleting, publishing).
- Enhanced user interaction with features like **video search**, **liking**, **commenting**, and **playlist creation**.

More projects on my **Portfolio**.

## TECHNICAL SKILLS

**Languages:** Golang, Typescript, HTML5, CSS3, JavaScript, Python, SQL

**Frameworks:** React.js, Tailwind, ShadCN UI, Material UI, Bootstrap, Node.js, Express.js, Remix, FastAPI, NextJS

**Developer Tools:** Git VCS, Postman, Ngrok

**Databases:** MongoDB, PostgreSQL, MySQL
