EDUCATION

Vivekananda PU College Puttur, Karnataka
Pre University College June 2019 – July 2021

FMKMC College, Mangalore University Madikeri, Karnataka
Bachelor of Computer Applications August 2021 – July 2024

EXPERIENCE

FixitAI - Full Stack Developer Intern July 2024 - Sep 2024
Intern

- Contributed to building the product using **Next.js** and **Shadcn**, focusing on creating **complex graphs and tables** for the analyzed calls.
- Collaborated with the team to develop **APIs** using **Python FastAPI** and integrated them with the **frontend**.
- Solely created the entire **presentation page**, featuring **AI bots** and **call analysis**, for **the startup's presentation in Dubai**.

Postship - Software Developer Sep 2024 - Present
Intern

- Built an entire section of the product for the **brands directory** using **Next.js**, **Tailwind CSS**, and **Firestore**, closely following **Figma designs**.
- Improved site **SEO** by implementing insights from **AHrefs** and transitioning pages from **SSG** and **SSR** to **ISR** for better performance.
- Collaborated with a skilled team, enhancing my learning in **team collaboration** and **advanced version control** practices on a daily basis.

PROJECTS

ImageNary AI | *Next.js, Typescript, Tailwind CSS (Shadcn), Cloudinary API*

- Built an image enhancement app with **Next.js**, optimized for **performance and user experience**.
- Seamlessly **integrated with the Cloudinary API** for sophisticated image manipulation capabilities, including **restoration and generative fill**.
- Utilized **Tailwind CSS (Shadcn)** for responsive and efficient styling.

MediaHub API | *Node.js, Express, MongoDB*

- **Developed a video sharing and streaming platform** akin to YouTube, offering a robust framework for user and video management.
- Implemented features for **user registration, profile management**, and **video operations** (uploading, updating, deleting, publishing).
- Enhanced user interaction with features like **video search, liking, commenting,** and **playlist creation**.

StripeStore | *Next.js, TypeScript, Redux, Tailwind CSS (Shadcn), Stripe*

- **Developed a comprehensive e-commerce platform** with Stripe integration using Next.js, TypeScript, and Redux.
- Implemented a **smooth browsing and checkout experience** for users.
- Styled the platform with **Tailwind CSS (Shadcn)** for a contemporary look.
